OUR UNIQUE BUSINESS MODEL IS THE BASIS FOR OUR COMPETITIVE ADVANTAGE

Technology and innovation leadership in

strategically important product areas

FUCHS is fully focussed on lubricants

Independency allows reliability, customer
& market proximity (responsiveness and
flexibility) and continuity

FUCHS is a full-line supplier

Global presence, R&D strength,
know-how transfer, speed

Advantage over
major oil companies

Advantage over other
independent companies

6 KEY MESSAGES

Lubricants

Unique FUCHS business model based on strict application focus and tailor-made solutions

Innovation Enabler

FUCHS has the solutions to help customers with their technology transformation

E-Mobility

Significant opportunities for FUCHS in fast developing markets

Sustainability

FUCHS enables its customers to lower their carbon footprint

Digitilization

FUCHS GOES DIGITAL as a basis for smart services, operational excellence and Business Model Innovation

Growth

FUCHS will exploit growth opportunities leading to an EBIT of € 500 mn by 2025

LUBRICANTS:

UNIQUE FUCHS BUSINESS MODEL BASED ON STRICT APPLICATION FOCUS AND TAILORMADE SOLUTIONS

THE PRINCIPAL DUTIES OF A LUBRICANT: ENSURE THE EFFICIENT OPERATION AND PRESERVATION OF MOVING PARTS

Reduce friction and
wear in moving
systems

Separate surfaces
and protect from
wear

Cool machinery and
equipment

Protect surfaces
from corrosion

Transfer energy

LUBRICANTS PLAY A MAJOR ROLE IN THE 3 MEGATRENDS OF SUSTAINABILITY, MOBILITY CHANGE AND
DIGITALIZATION

FUCHS' LUBRICANTS ENABLE INNOVATION

FUCHS HAS THE SOLUTIONS TO HELP CUSTOMERS WITH THEIR TECHNOLOGY TRANSFORMATION

CONTINUED FOCUS ON M&A GROWTH

Strategic M&A Guardrails

- Strengthening our footprint
- Fundamentally buying customer lists, specifications, approvals and knowhow
- Focus on bolt-on acquisitions to boost organic growth in regions and/or technologies

Financial Imperatives

- Synergies in purchasing, production, cross-selling, administration
- FVA is the main KPI, also when evaluating acquisition targets
- No predetermined pattern; model-adjusting to specific case

90 YEARS OF EXPERIENCE – FOR THE FUTURE

MILESTONES OF THE FUCHS CORPORATE HISTORY

A modest founder

Foundation of the company "RUDOLF FUCHS" in Mannheim.

1931

Difficult years

Expansion to a new product category: industrial oils.

1939 – 1945

Start of a new era

Manfred Fuchs took on responsibility for the family business and was to realize his vision of transforming the company into a global player.

1963

FUCHS launched on the stock exchange

In order to financially underpin the numerous expansions, the Fuchs family decided to float the company on the stock exchange. FUCHS is now one of the most valuable and successful stocks on the MDAX.

1985

Visionary investments

In order to continue to grow profitably and sustainably in the future, FUCHS launched the largest global investment program in its history.

2016

1931 – 1939

From sales to manufacturing

Growth and start of the company's own production.

1946

Development in focus

Hiring the first chemist set the course for the establishment of our worldwide network of experts.

1968

Closer to the customer

International expansion developed rapidly and FUCHS established itself inside and outside Europe. Today, FUCHS can be found in over 50 countries around the globe.

2004

The next generation

With Stefan Fuchs, the third generation of the family took over the leadership of the Group.

2018

Start of a new journey

Launch of the FUCHS2025 initiative. The goal: 'Being First Choice' – for our customers, business partners, investors, future employees.

HIGHLIGHTS

Operational Excellence

- Further standardize production & procurement processes
- Harmonize systems on the basis of global structures

Customer & Market Focus

- Better market penetration through market segmentation
- Develop a global service portfolio by 2025

Technology Leadership

- Technology Leadership in the segments we target until 2025
- Bring skills & expertise at the three R&D centers in China, Germany and the US at the same level

Global Strength

- Overproportionate growth in Asia Pacific & North and South America
- Use segmentation as a basis for strategic & global business development

People & Organization

- Be the employer of choice for existing and future employees
- Improve development programs, skills models and succession planning

Sustainability

- CO₂-neutrality “gate-to-gate” since 2020 and CO₂-neutral “cradle-to-gate” by 2025
- Sustainable revenue at a 15% EBIT margin and corresponding FVA growth

EXTERNAL UNCERTAINTIES IMPEDE OUTLOOK

- **War in Ukraine** and sanctions against Russia
- Further strong **increases in raw material prices** and significant **cost inflation** expected
- Impact of a potential **reduction of gas supplies** from Russia cannot be estimated at present

**High uncertainties
regarding full
year development
remain**

- **China's zero-covid** strategy with high-risk potential for the local and global economy
- Tightening of the **supply chain situation** and problems with **raw material availability** due to the geopolitical crises; availability problems also at customers affect demand

RAW MATERIAL PRICE DISLOCATIONS TO CONTINUE

- Crude oil with significant price increase since war in Ukraine and sanctions against Russia
- FUCHS does not buy crude oil, however higher feedstock costs combined with good base oil demand lead to higher base oil price in 2022
- Base chemical and additive prices also rise in '22

SUSTAINABILITY

FUCHS ENABLES ITS CUSTOMERS TO LOWER THEIR CARBON FOOTPRINT

FUCHS drives sustainability along the entire value chain

We empower our customers to perform more sustainably leading to greater efficiency and additional value potentials

Lubricants are by nature a contributor to lower the CO₂ footprint along the entire value chain

The basic idea of sustainability comes with additional requirements for lubricants: good news for FUCHS' high-performance products

FUCHS products play a decisive role to help customers lower their CO₂ footprint.

OUR VIEW ON SUSTAINABILITY

Economic

- Develop markets
- Bind & win customers
- Secure & increase longterm business

Social

- Employee safety & satisfaction
- „Corporate Citizenship“
- Compliance with human rights

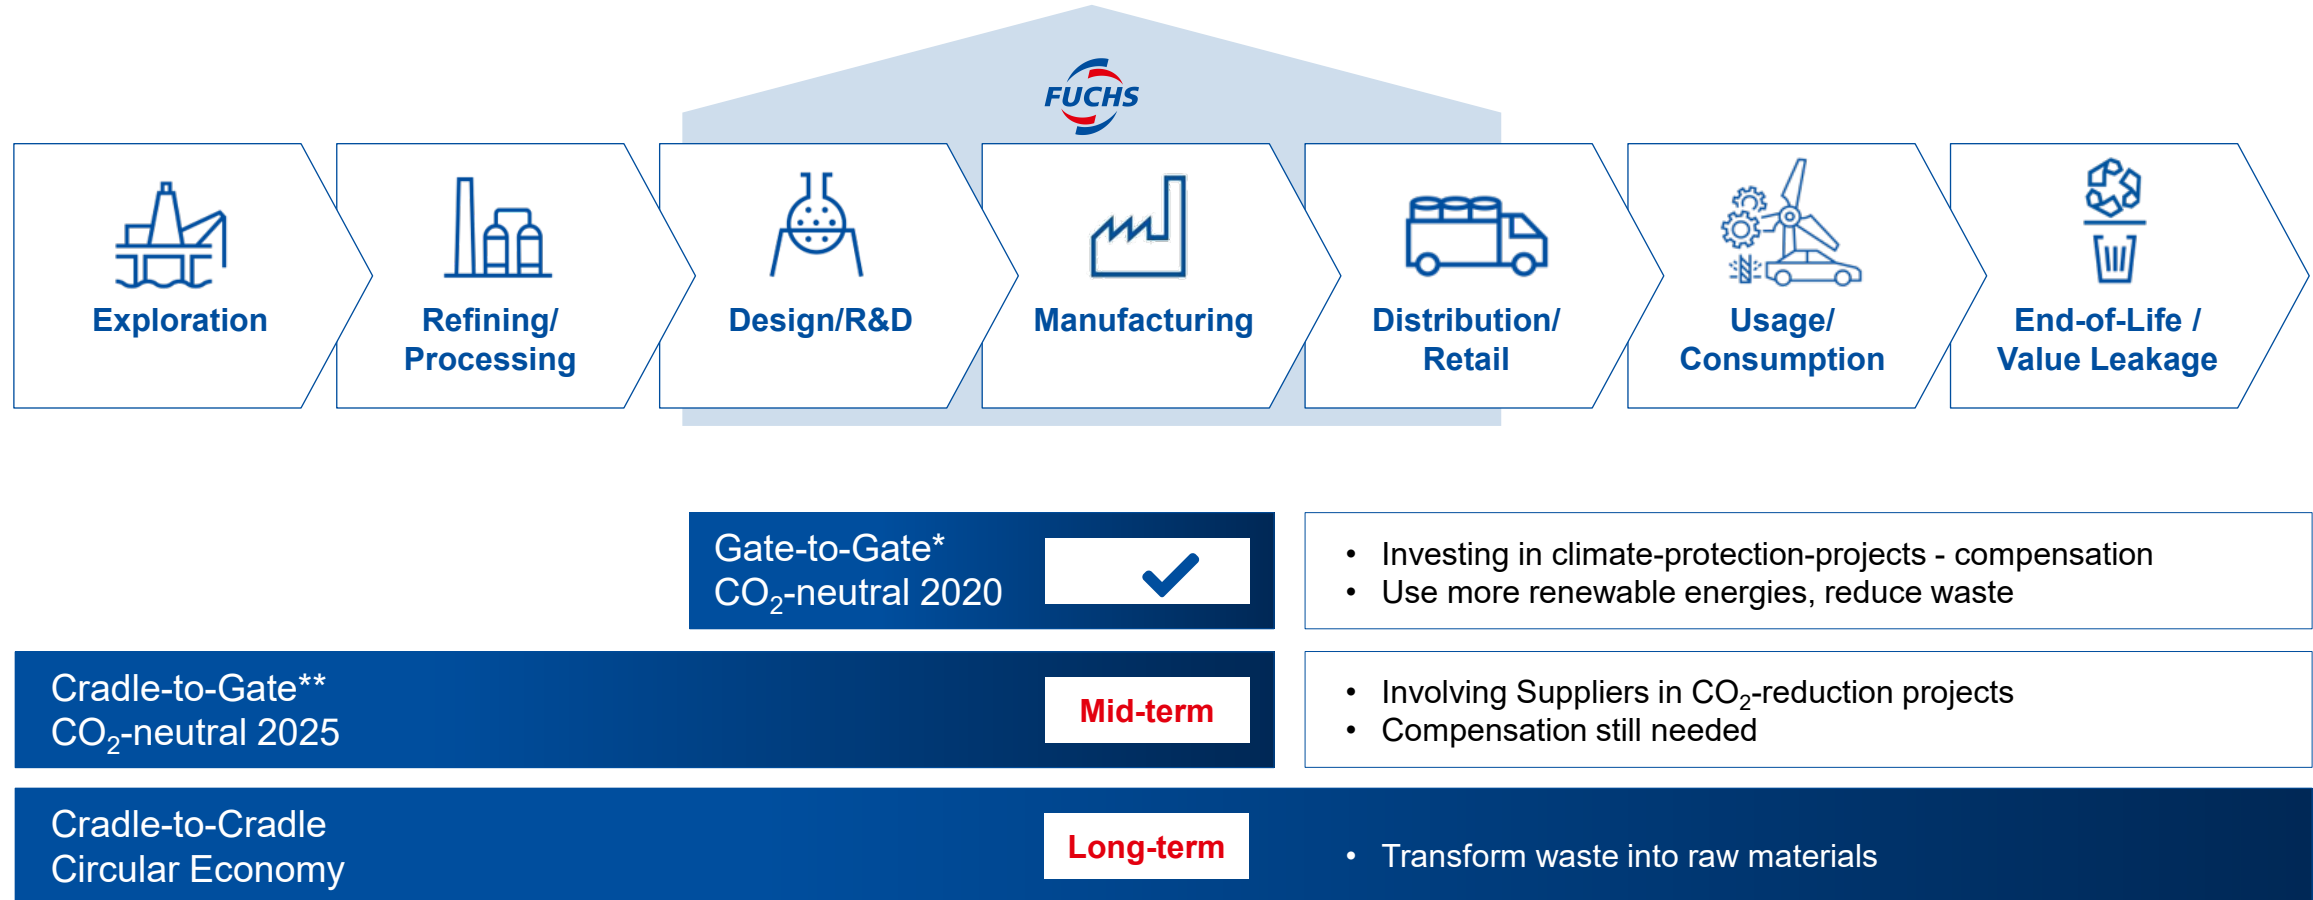

Ecological

- Resource-efficient production
- Environmentally friendly products
- Reduction of CO₂ emissions

ECOLOGICAL SUSTAINABILITY @ FUCHS

PARTNERING WITH THE COMPLETE VALUE CHAIN

INNOVATIVE ENGINEERING FOR SUSTAINABLE SOLUTIONS

Thanks to our lubricants, machines run more efficiently, which in turn increases their efficiency and lifetime.

For example, FUCHS proved with an excavator operated for 8,000 hours that the use of a premium hydraulic oil saves about 9,600 liters of diesel.

This corresponds to a CO₂-equivalent of nearly 30 tons.

FUCHS is constantly setting new standards with research partners and suppliers. FUCHS is providing solutions for sustainability in the industry.

FUCHS & CIRCULAR ECONOMY

VALUE CHAIN

We understand Circular Economy as a holistic concept along the entire value chain, guided by 3 overarching principles

FUCHS IN SUSTAINABILITY RATINGS AND RANKINGS

CDP

- FUCHS started comprehensive CDP-disclosure in 2021
- Climate change rating could be improved from D- to C
- Water security rating could be improved from D to B-

ISS

- FUCHS was rated „C-“ in 2022, with Transparency Level „High“
- Performance Score could be improved from 25.52 to 26.93

MSCI ESG Research

- FUCHS improved rating from BB to BBB in 2021

EcoVadis

- FUCHS responds on a local basis by producing affiliates and on customer request
- In 2022, four FUCHS affiliates received „Gold“-Award

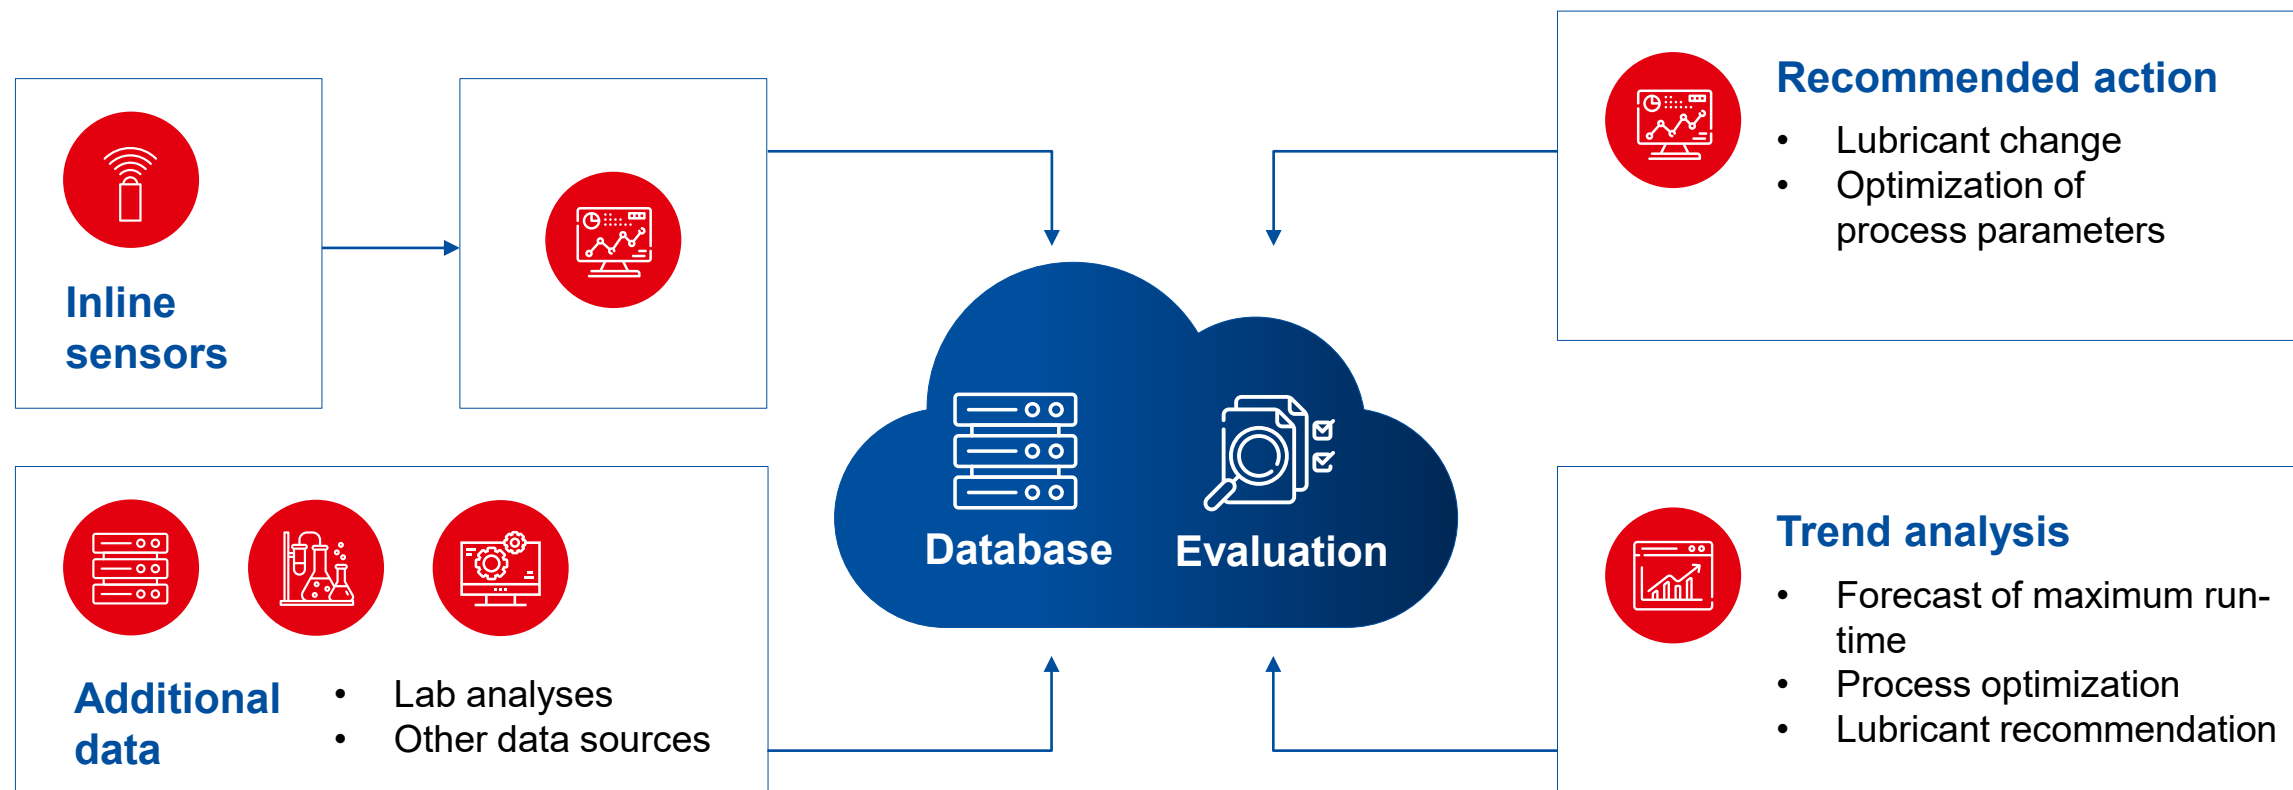

Change of corporate name

DIGITILIZATION

FUCHS GOES DIGITAL AS A BASIS FOR SMART SERVICES, OPERATIONAL EXCELLENCE AND BUSINESS MODEL INNOVATION

EFFICIENT LUBRICATION SOLUTIONS BY IMPLEMENTING THE FUCHS SMART SOLUTIONS ECOSYSTEM

CUSTOMER FOCUS

- FUCHS listens carefully to customers all around the world and understands the specific customer needs
- Our lubricants enable our customers to deliver an outstanding performance
- We have the knowledge how to develop those chemical products as per the requirements of our customers

THE GOAL OF ALL SOLUTIONS IS ADDRESSING THE THREE MAJOR CUSTOMER NEEDS:

Protection:

maximize equipment life and availability (machines, equipment and tools).

Optimization:

maximize customer performance (maximize output, increase quality, minimize input)

Savings:

reducing the use of resources (raw materials, maintenance, ...)

E-MOBILITY

SIGNIFICANT OPPORTUNITIES FOR FUCHS IN FAST GROWING MARKETS

Mobility change is on a fast track: today main focus on batteries

~ \$3bn of new market for functional fluids of which we see on a conservative basis 50% relevant for FUCHS. E-lyte and cooling fluids are examples for FUCHS activities in this field.

Mobility change comes with additional requirements for lubricants: good news for FUCHS' high-performance product

Globally the number of combustion engines will increase over the course of the next 10 years: European market to decline, growth (number of vehicles) especially in China.

E-mobility is a net opportunity with significant growth opportunities for the FUCHS Group.

SUSTAINABILITY DRIVES NEW TECHNOLOGIES

E-MOBILITY – THE SOURCE OF NEW OPPORTUNITIES

Primary target for e-mobility is passenger car and light duty

Heavy duty and stationary engines will follow very slowly – long haul and offroad is not feasible or inefficient

What does it mean to the markets in the light of the today's situation

CHINA

US

EUROPE

E-MOBILITY RAMP UP SCENARIO: CHINA

Car sales

Car population

- Strong increase in car sales and car population in China
- Openness in technology leading to more balanced split between ICE and non-ICE
- Even with a fast-growing share of BEVs, there will be more combustion engines in 2040 than today
- Implication on lubricant volumes:
 - current automotive market China ~3.5mt
 - ~1/3 bigger lubricant market including efficiency gains leads to volume increase of ~800kt

E-MOBILITY RAMP UP SCENARIO: EUROPE

Car sales

Car population

- Regulation in Europe will lead to ban of ICE cars between 2030 – 2040
- Overall car population expected to be largely stable
- Assumption: avg. 5 Mio. additional BEVs/year on the road till 2035
- Implication on lubricant volumes:
 - Current total European market ~5.8mt
 - Volume reduction of automotive passenger car market by around 25%
 - Heavy-duty segment (~50% of automotive) expected to be stable
 - Volume decline by ~700kt

Assumption: Full loss of car lubricants (MWF, grease,...)

E-MOBILITY SCENARIO: USA

No clear path
forward

Expected impact on the
market very limited in
the coming years

Expectation no
significant influence

MARKET IMPACT NEW OPPORTUNITIES

Electrolyte market opens up significant business potential

Strong increase in demand especially in Europe

Small to medium volume products - design to application

Therefore JV with E-Lyte to enter into this market segment – it is part of the drivetrain fluids – transfer of energy

We focus on high performance electrolytes, not on standard high volume market of traction batteries

E-Lyte product performance is unique to support, i. e. fast loading cycles

Perfect fit between E-Lyte and FUCHS – high technology meets high technology and industrial experience

DISCLAIMER

The information contained in this presentation is for background purposes only and is subject to amendment, revision and updating. Certain statements and information contained in this presentation may relate to future expectations and other forward-looking statements that are based on management's current views and assumptions and involve known and unknown risks and uncertainties. In addition to statements which are forward-looking by reason of context, including without limitation, statements referring to risk limitations, operational profitability, financial strength, performance targets, profitable growth opportunities, and risk adequate pricing, other words such as "may, will, should, expects, plans, intends, anticipates, believes, estimates, predicts, or continue", "potential, future, or further", and similar expressions identify forward-looking statements.

By their very nature, forward-looking statements involve a number of risks, uncertainties and assumptions which could cause actual results or events to differ materially from those expressed or implied by the forward-looking statements. These factors can include, among other factors, changes in the overall economic climate, procurement prices, changes to exchange rates and interest rates, and changes in the lubricants industry. FUCHS PETROLUB SE provides no guarantee that future developments and the results actually achieved in the future will match the assumptions and estimates set out in this presentation and assumes no liability for such. Statements contained in this presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future.

The company does not undertake any obligation to update or revise any statements contained in this presentation, whether as a result of new information, future events or otherwise. In particular, you should not place undue reliance on forward-looking statements, which speak only as of the date of this presentation.
