MOVING YOUR WORLD

TODAY'S 6 KEY MESSAGES

Lubricants

Unique FUCHS business model based on strict application focus and tailor-made solutions

Innovation Enabler

FUCHS has the solutions to help customers with their technology transformation

E-Mobility

Significant opportunities for FUCHS in fast developing markets

Sustainability

FUCHS enables its customers to lower their carbon footprint

Digitilization

FUCHS GOES DIGITAL as a basis for smart services, operational excellence and Business Model Innovation

Growth

FUCHS will exploit growth opportunities leading to an EBIT of € 500 mn by 2025

LUBRICANTS:

UNIQUE FUCHS BUSINESS MODEL BASED ON STRICT APPLICATION FOCUS AND TAILORMADE SOLUTIONS

THE PRINCIPAL DUTIES OF A LUBRICANT: ENSURE THE EFFICIENT OPERATION AND PRESERVATION OF MOVING PARTS

Reduce friction and
wear in moving
systems

Separate surfaces
and protect from
wear

Cool machinery and
equipment

Protect surfaces
from corrosion

Transfer energy

LUBRICANTS PLAY A MAJOR ROLE IN THE 3 MEGATRENDS OF SUSTAINABILITY, MOBILITY CHANGE AND
DIGITALIZATION

FUCHS' LUBRICANTS ENABLE INNOVATION

FUCHS HAS THE SOLUTIONS TO HELP CUSTOMERS WITH THEIR TECHNOLOGY TRANSFORMATION

E-MOBILITY

SIGNIFICANT OPPORTUNITIES FOR FUCHS IN FAST GROWING MARKETS

Mobility change is on a fast track: today main focus on batteries

~ \$3bn of new market for functional fluids of which we see on a conservative basis 50% relevant for FUCHS. E-lyte and cooling fluids are examples for FUCHS activities in this field.

Mobility change comes with additional requirements for lubricants: good news for FUCHS' high-performance product

Globally the number of combustion engines will increase over the course of the next 10 years: European market to decline, growth (number of vehicles) especially in China.

E-mobility is a net opportunity with significant growth opportunities for the FUCHS Group.

SUSTAINABILITY

FUCHS ENABLES ITS CUSTOMERS TO LOWER THEIR CARBON FOOTPRINT

FUCHS drives sustainability along the entire value chain

We empower our customers to perform more sustainably leading to greater efficiency and additional value potentials

Lubricants are by nature a contributor to lower the CO₂ footprint along the entire value chain

The basic idea of sustainability comes with additional requirements for lubricants: good news for FUCHS' high-performance products

FUCHS products play a decisive role to help customers lower their CO₂ footprint.

DIGITILIZATION

FUCHS GOES DIGITAL AS A BASIS FOR SMART SERVICES, OPERATIONAL EXCELLENCE AND BUSINESS MODEL INNOVATION

GROWTH

FUCHS WILL EXPLOIT GROWTH OPPORTUNITIES LEADING TO AN EBIT OF € 500 MN BY 2025

WE ARE WHERE OUR CUSTOMERS ARE IN OVER 50 COUNTRIES

OUR ORGANIZATIONAL STRUCTURE

GUIDING PRINCIPLES „ENTREPRENEURSHIP“ & „ACT GLOBAL“

FUCHS: WORKING IN AGILE NETWORKS

Our three principles for an open feedback culture

I. Describe a concrete situation*

- Colleague should be able to identify the behavior or situation you are referring to
- Avoid generalizations

II. Have a basic attitude of goodwill*

- Be descriptive- not judgemental
- Try to reduce the time between the situation and the feedback

III. Define „I“ statements*

- Describe your own perception
- Use „I“ statements
- Provide examples for improvement

Hierarchy free communication

GROWTH VIA SEGMENTS

INSIGHT – SPECIALTY / WIND

FUCHS Key Success Factors

- Technological leadership with a global, holistic and approved product program
- Extend product lifecycle
- Tailor-made solutions as one-stop-shop provider
- Lubrication expertise and out-of-the-box thinking
- Global customer orientation & state of the art production facilities
- New markets and niche application

INSIGHT – SPECIALTY / FOOD

FUCHS Key Success Factors

- FUCHS recognized as global market leader for food-grade lubricants
- Global product portfolio covering all food safety standards
- Experienced and knowledgeable global food partner network
- Focus on beverage & brewing, meat & poultry as well as animal food segments
- Further growth potential in packaging, pharma & robotics segment

INSIGHT – INDUSTRY / ROTARY MOTION

FUCHS Key Success Factors

- Rising demand for energy-efficient fluids for compressors, gear boxes and turbines across all industries
- Comprehensive global product portfolio for specialized high performance applications
- Global network with technical and commercial expertise
- Flexible R&D allows customer specific solutions
- OEM approvals in various fields
- Cross-sell opportunities with existing customers

INSIGHT – INDUSTRY / BATTERY PRODUCTION MARKET

FUCHS Key Success Factors

- Lubricants needed for battery production will account for ~25% of all lubricants in car production
- FUCHS has developed a comprehensive lubricant portfolio to cover the whole production process
- With our Global Battery Production Market Strategy we are strongly positioned and serve industry-leading customers like TESLA, Northvolt and CATL

Annual lithium-ion battery demand

INSIGHT – AAM / GEAR BOX AFTERMARKET

FUCHS Key Success Factors

- Share of automatic gearbox equipped vehicles growing, especially in Europe and Asia
- FUCHS is a renowned supplier and technology partner of automatic gearbox manufacturers
- Complex gearbox designs require specialized lubrication and maintenance attention in the aftermarket period too
- FUCHS GEAR PLUS offers a unique technical solution and a business model for passenger car workshops to perform automatic gearbox maintenance easily
- Expansion potential in Bus, Public Transport and Heavy Duty segments

INSIGHT – OEM / EDF FLUIDS

FUCHS Key Success Factors

- FUCHS Transmission Oil Technology already in use in a high number of first generation E-Drives
- Tailormade FUCHSBluEV Technology in serial production @European and Asian OEM's for second generation E-Drives
- In-House testing capabilities incl. 3-E-Drive Test-Rig

EFFICIENT LUBRICATION SOLUTIONS BY IMPLEMENTING THE FUCHS SMART SOLUTIONS ECOSYSTEM

CUSTOMER FOCUS

- FUCHS listens carefully to customers all around the world and understands the specific customer needs
- Our lubricants enable our customers to deliver an outstanding performance
- We have the knowledge how to develop those chemical products as per the requirements of our customers

THE GOAL OF ALL SOLUTIONS IS ADDRESSING THE THREE MAJOR CUSTOMER NEEDS:

Protection:

maximize equipment life and availability (machines, equipment and tools).

Optimization:

maximize customer performance (maximize output, increase quality, minimize input)

Savings:

reducing the use of resources (raw materials, maintenance, ...)

FUCHS SMART SOLUTIONS

OUR INPUT

Technology

- More than 10.000 lubricants for various industries
- German technology - globally engineered: High performance products delivering improved performance/life time at customers
- Pioneering future performance fluids applications, e.g. e-mobility, thermofluids, electrolytes, etc.
- Globally available engineering and technology experts

Experience

- 90 years of experience in lubrication and full focus on lubrication
- Customer service excellence with one face to the customer
- In depth expertise on customer market segments

2022: YEAR #4 OF VOLATILITY

MANY EXTERNAL HAPPENINGS IMPACT THE WORLD ECONOMY AT THE SAME TIME

GEOPOLITICAL IMPACTS

- Zero-Covid-Strategy China
- Russia's invasion in the Ukraine

INFLATION

- Significant raw material cost increases
- Increases in freight and energy costs and salaries

SUPPLY CHAIN PROBLEMS

- We experience significant shortages
- Our customers as well

REGIONALIZATION TECHNOLOGY – RAW MATERIALS – GEOPOLITICAL BARRIERS - 3 HUB STRATEGY

WORLD ORDER – GLOBAL GOES REGIONAL

ASIA-PACIFIC / China

China's strategic positioning is China centered – to be independent and to decouple from the rest of the world – China develops own technologies with specific market requirements

EUROPE

European technology on its own will see significant changes in raw material availability due to the “Green Deal” and changes of the petrochemical landscape. Europe needs to reduce the dependence on imported raw materials and prepare the economy for circular

Americas

Own technology region – moving to more efficient technology in industry. Stable on its own – “America First”

FUCHS SMART WAY OF WORKING

R&D Key Working Groups – exchange – support – learn within the community to avoid double work

Operations networks standardize equipment, exchange best practices

Sales divisionalization helps to exchange business models, market approaches etc. global to local

HR to support in methodologies, i. e. evaluation, education and other HR principles

FINANCIAL TARGETS - OVERVIEW

FINANCIAL TARGET 2025

GROWTH DRIVER 2025

EMEA

- Improved market penetration through segmentation
- Supply Chain & Logistics Excellence
- Process Efficiency/ Digitalization
- Profit growth throughout the region
- Profitability Nordics
- Germany Merger

Asia-Pacific

- Improved market penetration through segmentation
- Strong growth in all sub regions (Australasia, East Asia, India and Southeast Asia)
- Accelerated specialty sales growth through NYE integration

North & South America

- Improved market penetration through segmentation
- Main growth coming from North America (USA, Mexico, Canada)
- Further development of automotive business in the US

TOP-LINE GROWTH IN THE REGIONS

2025 TARGET REFLECTING ACCELERATED EBIT GROWTH

SOLID BALANCE SHEET STRUCTURE

Development of equity ratio in %

High equity ratio provides stability in challenging and uncertain environment

High equity ratio gives room for strategic maneuver

CONTINUED FOCUS ON M&A GROWTH

Strategic M&A Guardrails

- Strengthening our footprint
- Fundamentally buying customer lists, specifications, approvals and knowhow
- Focus on bolt-on acquisitions to boost organic growth in regions and/or technologies

Financial Imperatives

- Synergies in purchasing, production, cross-selling, administration
- FVA is the main KPI, also when evaluating acquisition targets
- No predetermined pattern; model-adjusting to specific case

FUCHS EARNINGS PROFILE ROBUST IN CYCLICAL TIMES

FCF CONVERSION¹

STRONG HISTORIC TRACK RECORD – FURTHER IMPROVEMENT AHEAD

Strong improvement of FCF and Cash Conversion

FCF levers going forward

- Strict **NOWC management**; current high level to come down with normalised cost inflation rates going forward
- Maintain **CAPEX** on **D&A level** of ~ €80mn
- With reduced investments, CCR has potential to grow **above ten-year average** of 0.73x
- **0.8x CCR target** reflecting growth and accordingly NOWC build-up

UPGRADE OF DIVIDEND POLICY

Dividend per Preference Share

20 years
of consecutive dividend increases

7 %
CAGR over the last 10 years

29 years
without dividend decreases

Old: Increase the absolute dividend amount each year or at least maintain previous year's level

New: Increase the absolute dividend amount each year

SHARE BUYBACK PROGRAMME COMMENCED

Key points

- Up to 6,000,000 shares, thereof up to 3,000,000 ordinary shares and up to 3,000,000 preference shares
- Total purchase price of up to EUR 200 million (excluding incidental acquisition costs)
- Programme started on June 27, 2022 and will last until March 29, 2024 at the latest

Implications

- Shares to be cancelled
- Optimization of capital structure
- No limitation in growth ambitions and potential M&A opportunities
- Financed through Free Cashflow generation; optionally usage of short-term bank loans

COMMITTED TO REALIZE SHAREHOLDER VALUE

FCF bef. acq. from 2011-2021

BALANCED CAPITAL ALLOCATION STRATEGY SUPPORTED BY STRONG FREE CASH FLOW

CAPEX

Major investment initiative from 2016-2020 successfully completed

Keep investments on the comparable level of depreciation and amortization

Acquisitions

Search for acquisitions fulfilling our financial and strategic objectives

Solid balance sheet structure provides flexibility

Return to Shareholders

Dividend policy: Increase the absolute dividend per share each year

Option to return excess cash to shareholders through buybacks

FINANCIAL TARGETS - OVERVIEW

Upgrade of dividend policy: Increase the absolute dividend amount each year

MOVING YOUR WORLD

OUR VIEW ON SUSTAINABILITY

Economic

- Develop markets
- Bind & win customers
- Secure & increase longterm business

Social

- Employee safety & satisfaction
- „Corporate Citizenship“
- Compliance with human rights

Ecological

- Resource-efficient production
- Environmentally friendly products
- Reduction of CO₂ emissions

ECOLOGICAL SUSTAINABILITY @ FUCHS

PARTNERING WITH THE COMPLETE VALUE CHAIN

Gate-to-Gate*
CO₂-neutral 2020

- Investing in climate-protection-projects - compensation
- Use more renewable energies, reduce waste

Cradle-to-Gate**
CO₂-neutral 2025

Mid-term

- Involving Suppliers in CO₂-reduction projects
- Compensation still needed

Cradle-to-Cradle
Circular Economy

Long-term

- Transform waste into raw materials

ECOLOGICAL SUSTAINABILITY @ FUCHS

THE DIFFERENTIATOR LIES IN THE ADDED VALUE THAT FUCHS CREATES FOR ITS CUSTOMERS

WE EMPOWER OUR CUSTOMERS TO PERFORM MORE SUSTAINABLY

We are convinced that enabling our customers to act more sustainably is also the key to greater efficiency and thus significant economic savings and added value potentials.

This is not only the basis for the long-term economic success of our customers - but also for our own.

INNOVATIVE ENGINEERING FOR SUSTAINABLE SOLUTIONS

Thanks to our lubricants, machines run more efficiently, which in turn increases their efficiency and lifetime.

For example, FUCHS proved with an excavator operated for 8,000 hours that the use of a premium hydraulic oil saves about 9,600 liters of diesel.

This corresponds to a CO₂-equivalent of nearly 30 tons.

FUCHS is constantly setting new standards with research partners and suppliers. FUCHS is providing solutions for sustainability in the industry.

CO₂ fleet emission targets

No eligibility of fuels from renewables

SUSTAINABILITY DRIVES NEW TECHNOLOGIES

E-MOBILITY – THE SOURCE OF NEW OPPORTUNITIES

Primary target for e-mobility is passenger car and light duty

Heavy duty and stationary engines will follow very slowly – long haul and offroad is not feasible or inefficient

What does it mean to the markets in the light of the today's situation

CHINA

US

EUROPE

E-MOBILITY RAMP UP SCENARIO: CHINA

Car sales

Car population

- Strong increase in car sales and car population in China
- Openness in technology leading to more balanced split between ICE and non-ICE
- Even with a fast-growing share of BEVs, there will be more combustion engines in 2040 than today
- Implication on lubricant volumes:
 - current automotive market China ~3.5mt
 - ~1/3 bigger lubricant market including efficiency gains leads to volume increase of ~800kt

E-MOBILITY RAMP UP SCENARIO: EUROPE

Car sales

Car population

- Regulation in Europe will lead to ban of ICE cars between 2030 – 2040
- Overall car population expected to be largely stable
- Assumption: avg. 5 Mio. additional BEVs/year on the road till 2035
- Implication on lubricant volumes:
 - Current total European market ~5.8mt
 - Volume reduction of automotive passenger car market by around 25%
 - Heavy-duty segment (~50% of automotive) expected to be stable
 - Volume decline by ~700kt

Assumption: Full loss of car lubricants (MWF, grease,...)

E-MOBILITY SCENARIO: USA

No clear path
forward

Expected impact on the
market very limited in
the coming years

Expectation no
significant influence
through e-mobility

MARKET IMPACT NEW OPPORTUNITIES

Electrolyte market opens up significant business potential

Strong increase in demand especially in Europe

Small to medium volume products - design to application

Therefore JV with E-Lyte to enter into this market segment – it is part of the drivetrain fluids – transfer of energy

We focus on high performance electrolytes, not on standard high volume market of traction batteries

E-Lyte product performance is unique to support, i. e. fast loading cycles

Perfect fit between E-Lyte and FUCHS – high technology meets high technology and industrial experience

BROAD SPECTRUM OF APPLICATIONS FOR ELECTROLYTES
