# E-MOBILITY

## SIGNIFICANT OPPORTUNITIES IN FAST-GROWING MARKETS

Mobility change is on a fast track: today main focus on batteries

~ \$3bn of new market for functional fluids of which we see on a conservative basis 50% relevant for FUCHS. E-lyte and cooling fluids are examples for FUCHS activities in this field.

Mobility change comes with additional requirements for lubricants: good news for FUCHS' high-performance product

Globally the number of combustion engines will increase over the course of the next 10 years: European market to decline, growth (number of vehicles) especially in China.

**E-mobility is a net opportunity with significant growth opportunities for the FUCHS Group.**

# 90 YEARS OF EXPERIENCE – FOR THE FUTURE

## MILESTONES OF THE FUCHS CORPORATE HISTORY

**A modest founder**  
Foundation of the company "RUDOLF FUCHS" in Mannheim.

1931

**Difficult years**  
Expansion to a new product category: industrial oils.

1939 – 1945

**Start of a new era**  
Manfred Fuchs took on responsibility for the family business and was to realize his vision of transforming the company into a global player.

1963

**FUCHS launched on the stock exchange**  
In order to financially underpin the numerous expansions, the Fuchs family decided to float the company on the stock exchange. FUCHS is now one of the most valuable and successful stocks on the MDAX.

1985

**Visionary investments**

In order to continue to grow profitably and sustainably in the future, FUCHS launched the largest global investment program in its history.

2016

1931 – 1939

**From sales to manufacturing**  
Growth and start of the company's own production.

1946

**Development in focus**  
Hiring the first chemist set the course for the establishment of our worldwide network of experts.

1968

**Closer to the customer**  
International expansion developed rapidly and FUCHS established itself inside and outside Europe. Today, FUCHS can be found in over 50 countries around the globe.

2004

**The next generation**  
With Stefan Fuchs, the third generation of the family took over the leadership of the Group.

2018

**Start of a new journey**  
Launch of the FUCHS2025 initiative. The goal: 'Being First Choice' – for our customers, business partners, investors, future employees.

# SUSTAINABILITY DRIVES NEW TECHNOLOGIES

## E-MOBILITY – THE SOURCE OF NEW OPPORTUNITIES

Primary target for e-mobility is passenger car and light duty

Heavy duty and stationary engines will follow very slowly – long haul and offroad is not feasible or inefficient

What does it mean to the markets in the light of the today's situation

CHINA

US

EUROPE

# E-MOBILITY RAMP UP SCENARIO: CHINA

## Car sales

## Car population

- Strong increase in car sales and car population in China
- Openness in technology leading to more balanced split between ICE and non-ICE
- Even with a fast-growing share of BEVs, there will be more combustion engines in 2040 than today
- Implication on lubricant volumes:
  - current automotive market China ~3.5mt
  - ~1/3 bigger lubricant market including efficiency gains leads to volume increase of ~800kt

# E-MOBILITY RAMP UP SCENARIO: EUROPE

## Car sales

## Car population

- Regulation in Europe will lead to ban of ICE cars between 2030 – 2040
- Overall car population expected to be largely stable
- Assumption: avg. 5 Mio. additional BEVs/year on the road till 2035
- Implication on lubricant volumes:
  - Current total European market ~5.8mt
  - Volume reduction of automotive passenger car market by around 25%
  - Heavy-duty segment (~50% of automotive) expected to be stable
  - Volume decline by ~700kt

*Assumption: Full loss of car lubricants (MWF, grease,...)*

# E-MOBILITY SCENARIO: USA

No clear path  
forward

Expected impact on the  
market very limited in  
the coming years

Expectation no  
significant influence  
through e-mobility
