OUR UNIQUE BUSINESS MODEL IS THE BASIS FOR OUR COMPETITIVE ADVANTAGE

Technology and innovation leadership in

strategically important product areas

FUCHS is fully focussed on lubricants

FUCHS is a full-line supplier

Independency allows reliability, customer
& market proximity (responsiveness and
flexibility) and continuity

Global presence, R&D strength,
know-how transfer, speed

Advantage over
major oil companies

Advantage over other
independent companies

E-MOBILITY

SIGNIFICANT OPPORTUNITIES IN FAST-GROWING MARKETS

Mobility change is on a fast track: today main focus on batteries

~ \$3bn of new market for functional fluids of which we see on a conservative basis 50% relevant for FUCHS. E-lyte and cooling fluids are examples for FUCHS activities in this field.

Mobility change comes with additional requirements for lubricants: good news for FUCHS' high-performance product

Globally the number of combustion engines will increase over the course of the next 10 years: European market to decline, growth (number of vehicles) especially in China.

E-mobility is a net opportunity with significant growth opportunities for the FUCHS Group.

SUSTAINABILITY

FUCHS EMPOWERS ITS CUSTOMERS TO PERFORM MORE SUSTAINABLY

FUCHS drives sustainability along the entire value chain

We empower our customers to perform more sustainably leading to greater efficiency and additional value potentials

Lubricants are by nature a contributor to lower the CO₂ footprint along the entire value chain

The basic idea of sustainability comes with additional requirements for lubricants: good news for FUCHS' high-performance products

FUCHS products play a decisive role to help customers lower their CO₂ footprint.

- FVA is the main KPI, also when evaluating acquisition targets
- No predetermined pattern; model-adjusting to specific case

90 YEARS OF EXPERIENCE – FOR THE FUTURE

MILESTONES OF THE FUCHS CORPORATE HISTORY

A modest founder
Foundation of the company "RUDOLF FUCHS" in Mannheim.

1931

Difficult years
Expansion to a new product category: industrial oils.

1939 – 1945

Start of a new era
Manfred Fuchs took on responsibility for the family business and was to realize his vision of transforming the company into a global player.

1963

FUCHS launched on the stock exchange
In order to financially underpin the numerous expansions, the Fuchs family decided to float the company on the stock exchange. FUCHS is now one of the most valuable and successful stocks on the MDAX.

1985

Visionary investments

In order to continue to grow profitably and sustainably in the future, FUCHS launched the largest global investment program in its history.

2016

1931 – 1939

From sales to manufacturing
Growth and start of the company's own production.

1946

Development in focus
Hiring the first chemist set the course for the establishment of our worldwide network of experts.

1968

Closer to the customer
International expansion developed rapidly and FUCHS established itself inside and outside Europe. Today, FUCHS can be found in over 50 countries around the globe.

2004

The next generation
With Stefan Fuchs, the third generation of the family took over the leadership of the Group.

2018

Start of a new journey
Launch of the FUCHS2025 initiative. The goal: 'Being First Choice' – for our customers, business partners, investors, future employees.

* The impact of the ongoing tense geopolitical situation on the global economy and FUCHS cannot be estimated at this time. In addition, the further development of raw material prices remains a matter of great uncertainty.

DIFFERENT PRICE DEVELOPMENTS FOR RAW MAT. BASKET

Market Development Q1

- **Base oil group I and II** further decreased globally with regional differences in terms of timing and magnitude
- **Base oil group III** remained firm due to structural tightness and persisting supply limitations of single producers
- Prices for **additive packages** and **other raw materials** remained on high level

Outlook Q2

- **Base oils:** Americas expected to reach price bottom, EMEA and Asia with potential small-scale increases
- **Additive packages & other raw materials:** Prices expected to slightly decrease at best

ECOLOGICAL SUSTAINABILITY @ FUCHS

PARTNERING WITH THE COMPLETE VALUE CHAIN

INNOVATIVE ENGINEERING FOR SUSTAINABLE SOLUTIONS

Thanks to our lubricants, machines run more efficiently, which in turn increases their efficiency and lifetime.

For example, FUCHS proved with an excavator operated for 8,000 hours that the use of a premium hydraulic oil saves about 9,600 liters of diesel.

This corresponds to a CO₂-equivalent of nearly 30 tons.

FUCHS is constantly setting new standards with research partners and suppliers. FUCHS is providing solutions for sustainability in the industry.

WE TAKE ACTION TO REDUCE FUCHS-EMISSIONS

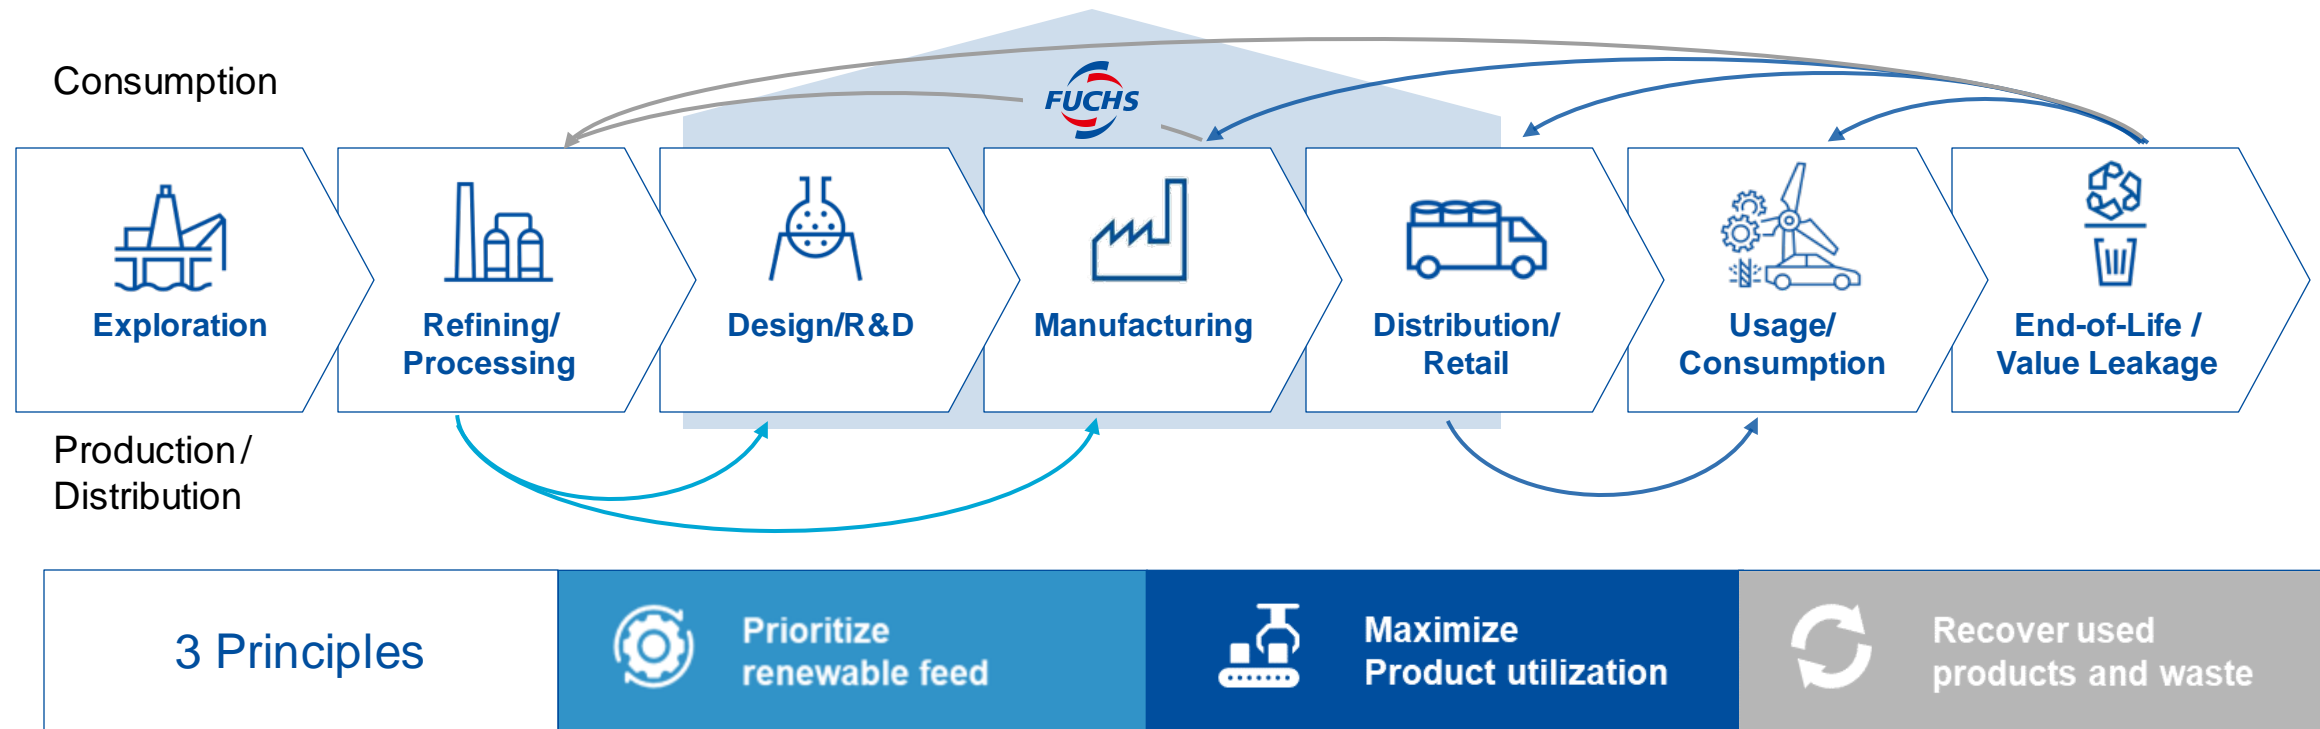

ROADMAP TO „NET ZERO“ BY 2040

FUCHS & CIRCULAR ECONOMY

VALUE CHAIN

We understand Circular Economy as a holistic concept along the entire value chain, guided by 3 overarching principles

FUCHS IN SUSTAINABILITY RATINGS AND RANKINGS

CDP

- FUCHS started comprehensive CDP-disclosure in 2021
- Climate change rating could be improved from D- to C
- Water security rating could be improved from D to B-

ISS

- FUCHS was rated „C-“ in 2022, with Transparency Level „High“
- Performance Score could be improved from 25.52 to 26.93

MSCI ESG Research

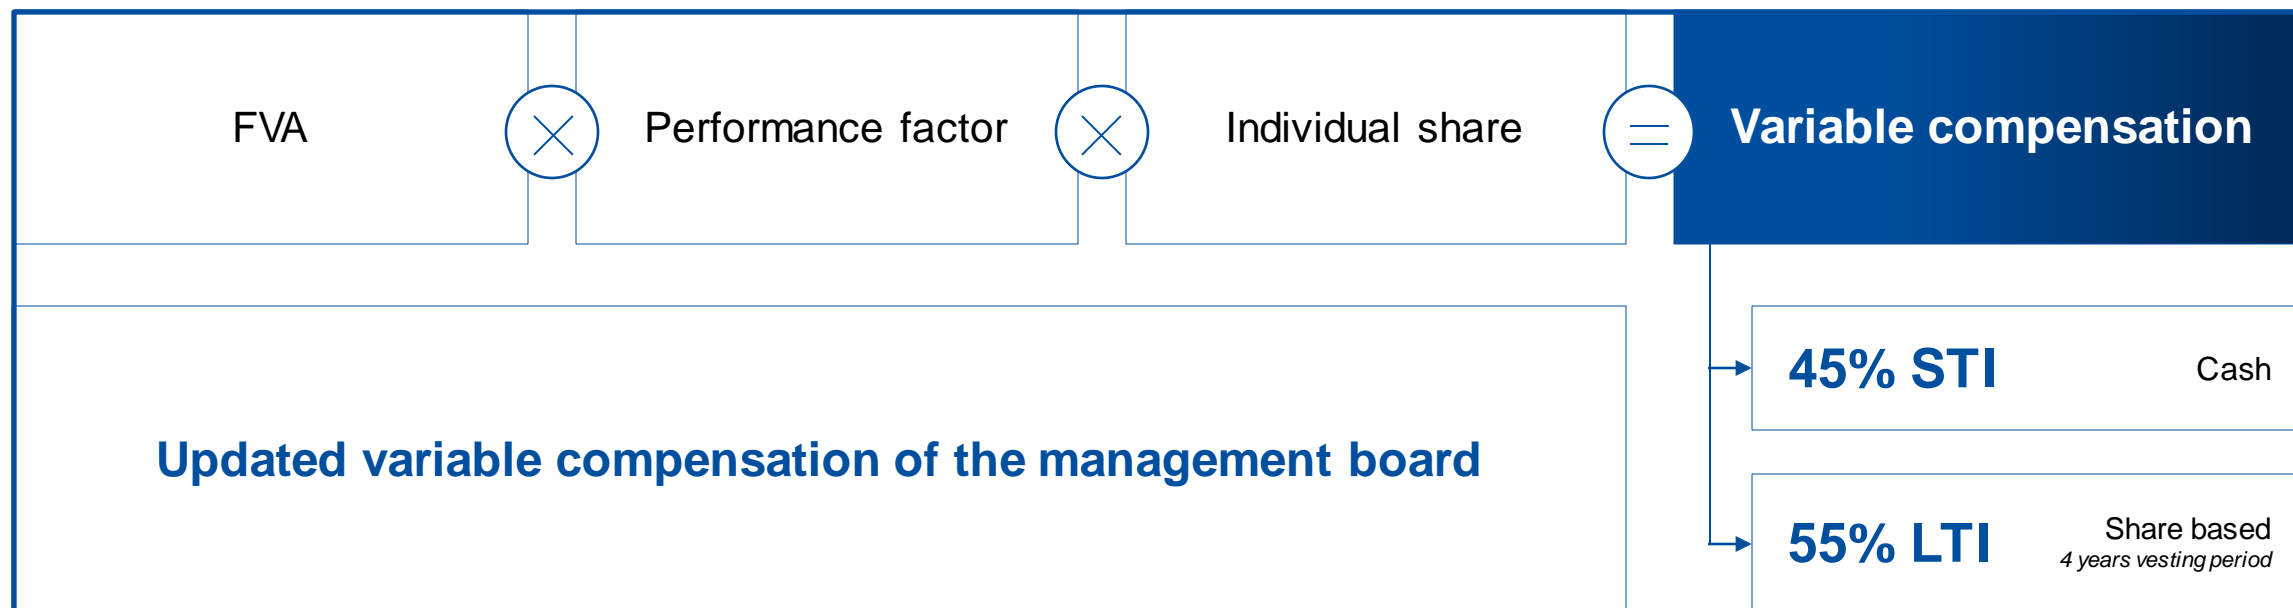

- FUCHS improved rating from BB to BBB in 2021

EcoVadis

- FUCHS responds on a local basis by producing affiliates and on customer request
- In 2022, four FUCHS affiliates received „Gold“-Award

Change of corporate name

SUSTAINABILITY DRIVES NEW TECHNOLOGIES

E-MOBILITY – THE SOURCE OF NEW OPPORTUNITIES

Primary target for e-mobility is passenger car and light duty

Heavy duty and stationary engines will follow very slowly – long haul and offroad is not feasible or inefficient

What does it mean to the markets in the light of the today's situation

CHINA

US

EUROPE

E-MOBILITY RAMP UP SCENARIO: CHINA

Car sales

Car population

- Strong increase in car sales and car population in China
- Openness in technology leading to more balanced split between ICE and non-ICE
- Even with a fast-growing share of BEVs, there will be more combustion engines in 2040 than today
- Implication on lubricant volumes:
 - current automotive market China ~3.5mt
 - ~1/3 bigger lubricant market including efficiency gains leads to volume increase of ~800kt

E-MOBILITY RAMP UP SCENARIO: EUROPE

Car sales

Car population

- Regulation in Europe will lead to ban of ICE cars between 2030 – 2040
- Overall car population expected to be largely stable
- Assumption: avg. 5 Mio. additional BEVs/year on the road till 2035
- Implication on lubricant volumes:
 - Current total European market ~5.8mt
 - Volume reduction of automotive passenger car market by around 25%
 - Heavy-duty segment (~50% of automotive) expected to be stable
 - Volume decline by ~700kt

Assumption: Full loss of car lubricants (MWF, grease,...)

E-MOBILITY SCENARIO: USA

No clear path
forward

Expected impact on the
market very limited in
the coming years

Expectation no
significant influence
through e-mobility

MARKET IMPACT NEW OPPORTUNITIES

Electrolyte market opens up significant business potential

Strong increase in demand especially in Europe

Small to medium volume products - design to application

Therefore JV with E-Lyte to enter into this market segment – it is part of the drivetrain fluids – transfer of energy

We focus on high performance electrolytes, not on standard high volume market of traction batteries

E-Lyte product performance is unique to support, i. e. fast loading cycles

Perfect fit between E-Lyte and FUCHS – high technology meets high technology and industrial experience

DISCLAIMER

The information contained in this presentation is for background purposes only and is subject to amendment, revision and updating. Certain statements and information contained in this presentation may relate to future expectations and other forward-looking statements that are based on management's current views and assumptions and involve known and unknown risks and uncertainties. In addition to statements which are forward-looking by reason of context, including without limitation, statements referring to risk limitations, operational profitability, financial strength, performance targets, profitable growth opportunities, and risk adequate pricing, other words such as "may, will, should, expects, plans, intends, anticipates, believes, estimates, predicts, or continue", "potential, future, or further", and similar expressions identify forward-looking statements.

By their very nature, forward-looking statements involve a number of risks, uncertainties and assumptions which could cause actual results or events to differ materially from those expressed or implied by the forward-looking statements. These factors can include, among other factors, changes in the overall economic climate, procurement prices, changes to exchange rates and interest rates, and changes in the lubricants industry. FUCHS PETROLUB SE provides no guarantee that future developments and the results actually achieved in the future will match the assumptions and estimates set out in this presentation and assumes no liability for such. Statements contained in this presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future.

The company does not undertake any obligation to update or revise any statements contained in this presentation, whether as a result of new information, future events or otherwise. In particular, you should not place undue reliance on forward-looking statements, which speak only as of the date of this presentation.
