

CERTIFICATE

Certificate-ID: C01-2025-03-21267802

Certificate for: **FUCHS Product Carbon Footprint Methodology**

Certified: FUCHS SE
Einsteinstr. 11
68169 Mannheim, Germany

Accounting Scope: PCF of 1 kg of finished unpacked FUCHS Product,
Cradle-to-(factory) Gate

Applied Standard: ISO 14067: 2018
Methodology for Product Carbon Footprint Calculations for Lubricants,
Greases and other Specialties developed by UEIL/ATIEL (2024)

Review Report: CF-2025-03-21267802

Valid until: March 31, 2026

In accordance with the named standard/guide, the reviewer concludes that the PCF methodology developed by FUCHS SE is scientifically based and reflects the state of the art. The approach and principles behind the methodology are generally appropriate for the assessment of potential climate change impacts of lubricants, greases and other specialties as well as chemical products and are additionally in accordance with the Together for Sustainability (TfS) PCF Guide V3.0 (2024), which is also a basis for compliance with the PACT Methodology V2 (2023). Furthermore, the data used are appropriate for the goal and scope of the method. Necessary recommendations for the documentation and tool were discussed during video conferences and implemented by FUCHS. For the future, TÜV Rheinland recommends continually enhancing the methodology in line with developments in science, technology, and the chemical industry, and adapting the methodology report accordingly. Specifications and assessment limits can be found in the review report. The validity can be authenticated using the QR code or the test mark ID at www.certipedia.com.
