Logging In

Enter Lubetrend username and password then click Login.

After logging in, the home screen will be displayed.

Pre-registering an existing unit

Choose Pre-Register Sample from Home page, or from the side menu

The screenshot shows the 'System Selector' screen in the app. At the top, there is a 'Back' button and the title 'System Selector'. Below this is a 'Search Field' with a 'Serial/Asset ID' input box. A 'Search Text' input box is also present, along with a barcode scanner icon and a plus sign icon. The main content area displays unit details in a grid-like format:

System Number	Unit Code	Serial Number
4422762	51505483	6509
Description		
HOIST GB		
Machine Type		
Make	Model	Cliqui
DEMAG	6 TYPE	KC_BRISTOL
Company	Site	
BABCOCK	DEVON PORT	

Select unit to register either with barcode scanner

Add Sample (Without upload)

Add and start new sample for System

Add and select another System from Unit

Add and upload samples

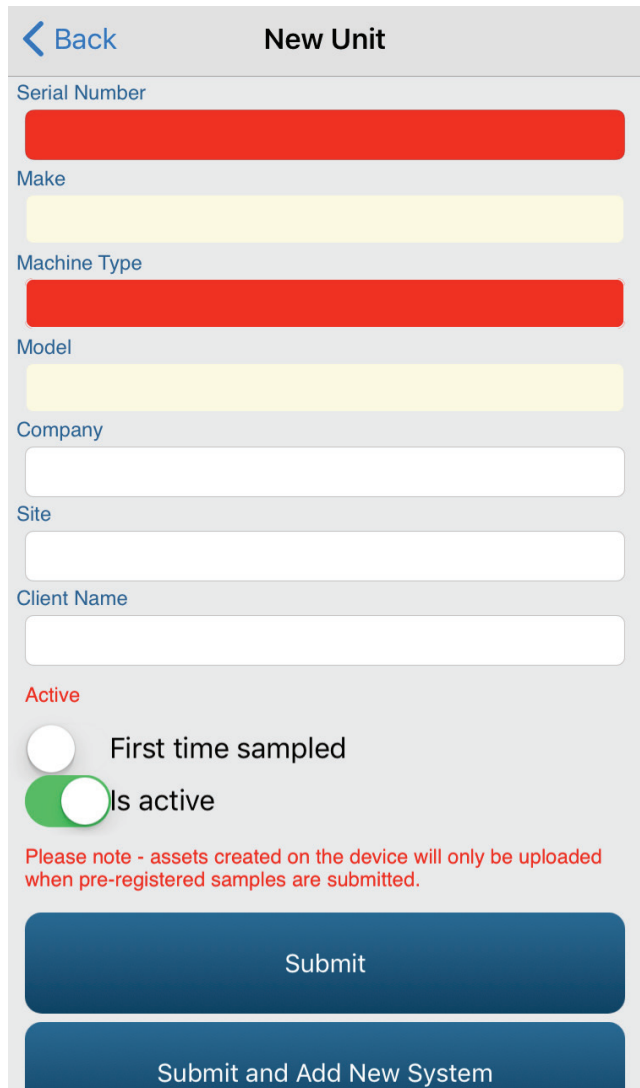

Choose upload method

Creating a new unit

From Home menu, select "Manage Assets" or from the side menu select "New Asset Management"

Choose "Add New Unit"

A screenshot of the 'New Unit' form. At the top left is a blue back arrow and the text 'Back'. To the right is the title 'New Unit'. Below the title are several input fields: 'Serial Number' (red), 'Make' (yellow), 'Machine Type' (red), 'Model' (yellow), 'Company' (white), 'Site' (white), and 'Client Name' (white). Below these fields is an 'Active' section with two radio buttons: 'First time sampled' (unselected) and 'Is active' (selected). Below the radio buttons is a red note: 'Please note - assets created on the device will only be uploaded when pre-registered samples are submitted.' At the bottom are two dark blue buttons: 'Submit' and 'Submit and Add New System'.

Submit and enter sample details

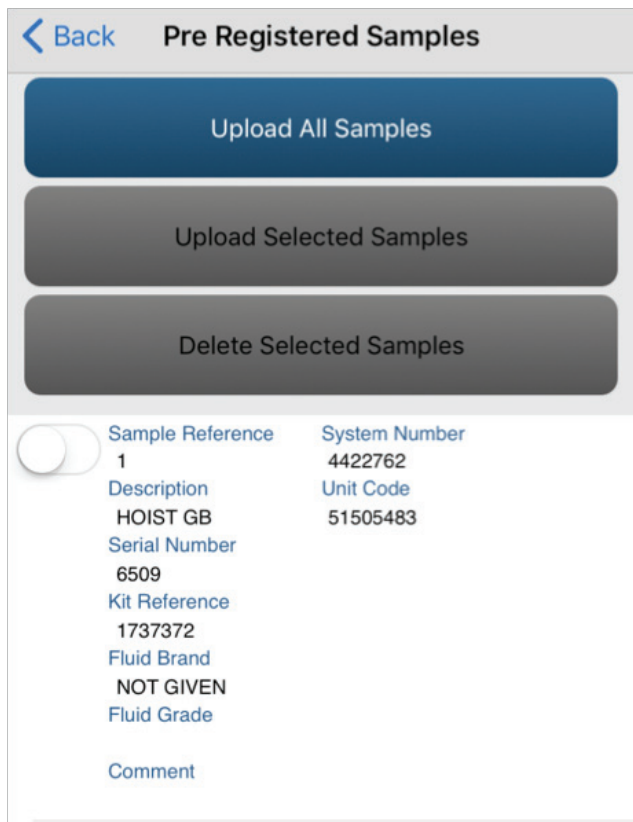

click Submit

Uploading

From Home menu, select “Manage Assets” or from the side menu select “New Asset Management”

The “Upload sample info” button on the main menu will have an indicator to show the number of samples waiting to be uploaded

Click “Upload All Samples” to upload everything in the list, or tick required sample/s, and choose “Upload Selected Samples”

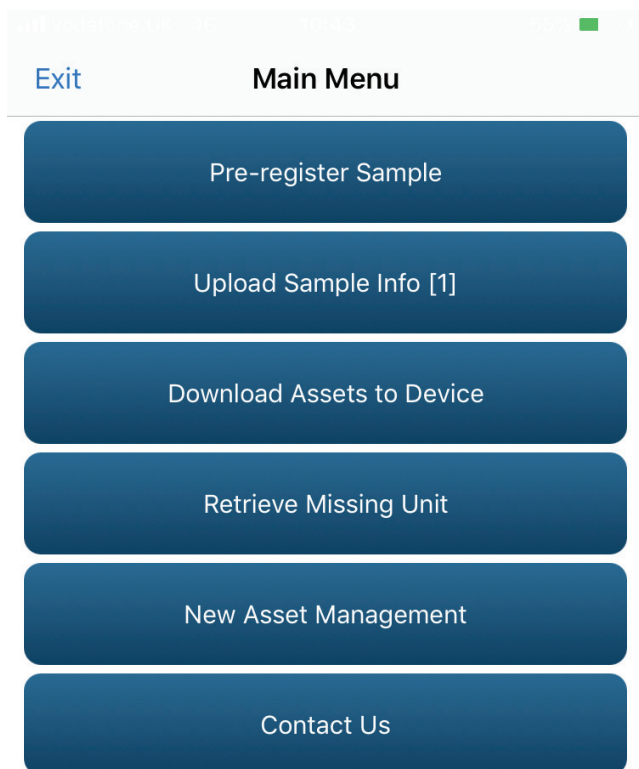

Submitting Feedback

The screenshot shows a mobile application interface for submitting feedback. At the top, there is a navigation bar with a back arrow and the text 'Contact Us'. Below this, the form is organized into sections: 'Your Name' with the value 'conwytest', 'Your Email Address' with 'david.coleman@alcontrol.com', 'Your Company' with 'Lubetrend', and 'Your Phone Number' which is empty. A 'Comment' field is also present and empty. At the bottom of the form are two large, dark blue buttons labeled 'Submit' and 'Cancel'.

Fill in relevant fields

click Submit

Logging out

From the menu screen, click the top left button labelled “Exit”

oilAnalysis

Glossary

Kit Reference number

The code on the top of the submission sheet or on the sample bottle which identifies your sample.

Unit Code

The unique identifying number generated by Lubetrend's database to identify the machine/vehicle (Eg. a truck, a ship, etc.)

System Number

The identifying number generated by Lubetrend's database to identify the specific system or compartment of the machine/vehicle it is linked to (Eg. The engine of the linked unit, the gearbox of the linked unit, etc.)

Fluid Brand

The type of fluid (Oil, hydraulic fluid, fuel, etc.) used in the system (Eg. Shell Omala,)

Serial number

The unique ID used to identify the machine (Eg. A car registration number, machine ID, tag number, etc.)

System Class

Test suite allocated to the sample to denote which test the lab will run

Machine Type

The machine family the machine/vehicle belongs to (Eg. Bulldozer)

QR Code

The scannable form of the Kit Reference Number for use with this App. Looks similar to this;

Job Number

Job Number, Work number, Project number, etc. assigned by the client.

Cliqui

Unique customer code allocated to each account.
