

Application equipment – grease guns

MOVING YOUR WORLD

System Reiner

- A versatile system for safe and clean lubrication of machinery.
- The system has been developed by FUCHS and consists of a screw cartridge with an associated grease gun.
- Works excellently in all types of industry, especially for safe handling in the food industry.

Fördelar

- Clean to use
- Reduces the risk of fault lubrication
- Gives a high pressure
- Easy to see level
- The entire grease cartridge is emptied
