

Lubricant solutions for all applications

MOVING YOUR WORLD

RENOLIN

Industrial lubricants

- Industrial gear oils
- Hydraulic fluids
- Turbine oils
- Refrigeration Oils
- Compressor oils

Many industrial processes require specially tailored lubricant solutions in order to work perfectly for specific tasks. RENOLIN industrial oils offer a comprehensive range of high-performance product solutions for the most diverse of applications and target groups. In addition, FUCHS industrial lubricants can improve productivity by allowing machines to work more efficiently with less downtime, reduced energy consumption & associated CO₂ emissions.

RENOLIT

Lubricating greases

- Multi-Purpose
- Long-life
- For Plain & Roller Bearing
- For Gear Boxes
- For Machine Tools
- For Rail Vehicles
- For Extreme Temperatures
- Biodegradable

RENOLIT greases have been developed for highly specific permanent and long-term lubrication product solutions. They excel through high performance, reliability and process-compatibility. They are also well tolerated by seal materials. RENOLIT is one of the largest grease ranges on the market - for almost all applications and requirements and for the best possible technical and economical solutions.

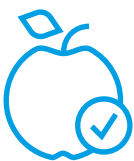

RENOCLEAN

Lubricating greases

- Neutral cleaner
- 1-Component products
- Builder + surfactants
- System cleaners
- Solvents
- Special products
- Corrosion protection
- Maintenance cleaner
- Personal care

The RENOCLEAN product range offers professional cleaners for a large number of different processes and applications. RENOCLEAN cleaners excel through their high washing effect, smooth processes, efficiency and economical use. As part of the range, FUCHS offers products suitable for immersion dip cleaning, spray cleaning, steam cleaners and high-pressure washers. An solution for every specific cleaning application keeping your workplace a clean and safe environment for your workforce.

CASSIDA

Food grade lubricants

- Chain oils
- Compressor oils
- Direct contact fluids
- Gear oils
- Hydraulic fluids
- Vacuum pump fluids
- Maintenance fluids
- Greases & White oils

CASSIDA offers the most comprehensive range of lubricants for any application field in the food and beverage industries and associated areas. All CASSIDA products are NSF registered and CASSIDA production sites are certified to ISO 21469. Kosher and Halal certifications are available proving that the lubricants meet the religious and legal food requirements of Muslim and Jewish customers.

Lubricant solutions for all applications

MOVING YOUR WORLD

ANTICORIT

Corrosion protection

- Corrosion protection oils
- Oily concentrates
- Mineral / Thixotropic
- Solvents
- Water displacing
- Water-miscible
- Coatings
- Volatile corrosion inhibitor
- Dewatering products
- Aerosols

The optimum corrosion protection for all materials and processes. ANTICORIT products are temporary corrosion preventatives that can be easily removed if necessary without impairments to the surfaces to be protected. Developed under careful consideration of all conditions, both in the laboratory and in practice, products are simple and economical to use - Specially adapted to the diverse requirements of the application. A wide range from oily and thixotropic to solvent-based or water miscible corrosion inhibitors, water displacers and wax preservatives.

FUCHS Service

Efficiency & reliability

- Lubricant management
- Supply chain management
- Documentation
- Equipment
- Monitoring
- Consulting
- Training

A sustainable & economical use of lubricants is only made possible by qualified service concepts. Systematic implementation exploits the full performance capacity of the lubricants by maximising the operating life and realising the reliable handling of these products. The experience gained from working with many thousands of customers and the well-founded product knowledge in all areas are used to develop and operate efficient service systems at the highest level. They are 100% focused on the lubricant and open up a multitude of advantages and savings opportunities. FUCHS Service includes: Fluid management, Technical Support & Reliability Support.
