## Revolution Speedway Signs USA Star

# GINO MANZARES

Gino arrived in the UK on Friday 23rd June to meet with Revolution Speedway and check out his brand new equipment! "We have worked hard to build Gino three brand new bikes for the competition, it is important that he gets the best experience possible while he is here and can be extremely competitive. Everything is taken care of for him from equipment, to mechanics, we look after all of the race bikes, his suit and riding equipment so all he will have to do is arrive at the track and race. We have been working consistently with our engine tuners and also our other riders to develop the new 2017 JAWA offset engines and we are extremely happy with the results that we have had so far."

On Monday the Race Team were out again as they travelled to Kent for another challenge match where Gino put in another solid performance dropping just two points. Gino commented "I cant thank Revolution Speedway enough! It is the most set up I've ever been and I'm very thankful for this development opportunity!"

"We have been hugely pleased with the results so far but we know how difficult the World Cup is going to be, the USA have an extremely young team and it will be a fantastic experience for them to go up against some of the best riders in the World on Saturday and you could see them unsettle a few of the more experienced riders!" Rob Painter, Race Team Director.

On Saturday 1st July the 2017 Monster Energy Speedway World Cup kicks off at Kings Lynn's Norfolk Arena. The week long event will see qualifying rounds being held at Kings Lynn and Vastervik, Sweden, before reaching it's climax at the World Cup Final in Leszno, Poland on Saturday 8th July. Event One at Kings Lynn will be screened live on BT Sport with coverage starting at 6:30pm.

The fiercely fought competition brings together the top nine Speedway nations in the World, each nation consisting of four man teams who race for the prestigious honour of being crowned number one in the World.

Event One will see Team Great Britain competing against the USA, Australia and the Czech Republic, with only three nations progressing through to the latter stages of the competition.

Revolution Speedway are delighted to announce that they have signed USA International Gino Manzares for the duration of the Speedway World Cup competition.

The 23 year old will lead out the young USA Dream Team at Kings Lynn on Saturday evening.
