**MOVING YOUR WORLD** 

# At FUCHS, you will always be sure of finding the perfect high-quality oil for your vehicle.

When it comes to oil for your vehicle, you don't want to spend a lot of time researching or dealing with complex labels and descriptions. Instead, you want all relevant information at a glance. And you want a product that's easy to use and to pour. We guide you quickly and directly to the right product for your vehicle, and offer a produce that's so easy to use. To ensure this, we enhanced both the shape of the small pack and the label, based on stateof-the-art ergonomic findings and customers' feedback. The labels now feature easily recognizable images, pictographs and color codes to help you choose the right oil. The optimized small pack shape includes a longer neck for smoother pouring. Other details such as the new grip on 1-liter packs and the double handle on 4-and 5-liter packs improve weight distribution, making them much easier to handle. The new tamper - resistant screw cap with a slit flex band ensures there's original FUCHS oil in the small pack.

By choosing products in our new small packs, you also help reduce waste and your carbon footprint. The packs contain at least 30% post-consumer recycled (PCR) content and the lubricants are produced in our CO<sub>2</sub>-neutral\* plants.

Finally, the newly designed small packs give you peace of mind that you are buying an original FUCHS product with German technology. All good reasons to choose FUCHS the next time you buy high-quality oil for your vehicle.

The range of oils for the automotive sector is huge. With the redesign of our small packs and labels, we give you maximum orientation – choosing the best oil has never been so easy!

#### **EASY TO CHOOSE**

- New small pack design with clearly structured labels
- Easy to choose thanks to images, pictograms and lubricant quality categories
- Updated, premium look and feel

#### **EASY TO USE**

- Improved ergonomics thanks to the redesigned small pack
- Easier pouring: refined neck design, grip area (1-liter packs), two handles (4- and 5-liter packs)
- New tamper-resistant screw cap

## EASY ON THE ENVIRONMENT

- Recycled and recyclable packaging
- Improved residual emptying
- CO₂-neutral production

Easy to select: Find the right oil for your engine here!

#### **FUCHS LUBRICANTS CO.**

#### **Facts and figures**

#### **COMPANY:**

FUCHS LUBRICANTS COMPANY, Harvey, IL, USA
FUCHS LUBRICANTS CANADA LTD., Langley BC and Cambridge
ON, Canada
LUBRICANTES FUCHS DE MEXICO SA DE CV
Ouerétaro, Oro., Mexico

#### **NORTH AMERICAN PLANT LOCATIONS:**

New Castle, DE; Harvey, IL; Kansas City, KS; Fairhaven, MA; Huntington, WV; Langley, BC; Cambridge, ON; Querétaro, Qro., MX

Since 1931, we have been pursuing the same goal: to keep the world moving. With innovative and technological lubricant solutions that have a sustainable impact on the future. Unconditional reliability is our top priority, it is the foundation of our company and the basis for everything that defines us.

Reliability is both a driver and a demand. And it's a promise to all our customers in the fields of automotive suppliers and OEMs, mechanical engineering, metal processing, mining and exploration, aerospace, energy, construction and transport, agriculture and forestry, as well as the paper, steel, metal, cement, forging and food industries, but also qualified lubricant dealers, car dealerships and workshops.

Long-term experience, high development strength and the fulfillment of far-reaching standards are the basis for the special quality of our world-leading product brands. We deliver solutions that are simply more efficient and therefore more sustainable. We always think in holistic solutions. For the development of individual solutions, we enter into an intensive customer dialog with you. This is the way we live up to our claim of moving your world.

#### The World of Automotive Lubricants

FUCHS consistently relies on the so-called European Engine Lubricant Quality Management System (EELQMS), a European quality management system for engine oils. In addition to our development and production within the framework of the automotive industry quality standard IATF 16949, the EELQMS quality seal stands for highest product quality.

#### **Engine Oils**

FUCHS is one of the leading lubricant manufacturers for the initial filling of passenger cars, trucks and agricultural or construction machines. With a comprehensive range of lubricants for all automotive applications and the XTL®-Technology that is unique worldwide, FUCHS truly sets new standards. Upon starting the engine, engine oils with XTL®-Technology reach the places where their protective film is urgently needed quicker and easier, even under extreme conditions. This ensures reliable protection throughout the entire service life of the oil. For the driver, that means easier start processes, less wear and lower fuel consumption - and oil consumption is also significantly lower than in conventional oils of the same viscosity class. A pioneering engine oil technology.

#### **Transmission Fluids**

To ensure smooth running throughout their entire service life, modern car transmissions need state-of-theart, high-performance lubricants that protect the gearing from wear and considerably improve the ease with which gears are changed. Moreover, the extension of the replacement intervals right up to a lifetime filling increases the requirements placed on the quality of the oils. As a longstanding development partner of the world's leading gear manufacturers, we keep our finger on the pulse of the times. Stay on the safe side with the ultra-modern TITAN gear oils.

**TITAN** 

#### **Lubricants for Agricultural Machinery**

FUCHS has been active in the agricultural lubricant market for more than 70 years, both as an OEM for machine manufacturers and in the field of workshop services. The latest innovative lubricants under the AGRIFARM brand secure maximum operational reliability of all agricultural units - from engines and transmissions, right through to hydraulics in all machines and vehicles. AGRIFARM lubricants have proved extremely successful even under the very toughest conditions and thereby offer the highest level of reliability for your vehicle fleet.

**AGRIFARM** 

TITAN

#### **Service Products**

The FUCHS MAINTAIN range of workshop and service products is a comprehensive portfolio of coolant additives, brake fluids and fuel additives. These offer your vehicle optimum protection at all times – particularly in winter.

Our MAINTAIN products are individually matched to virtually every vehicle type and offer the best possible protection combined with the latest technology.

#### **MAINTAIN**

#### **Environmentally Friendly Lubricants**

The dream of environmentally friendly lubricants is nothing new. Indeed, FUCHS was one of the first companies to enter the market with rapidly biodegradable lubricants back in the 70s. Since then, FUCHS has invested heavily in researching and further developing these lubricants. The reward for all this hard work: a priceless and unparalleled wealth of expertise and practical experience. Because one thing is certain: a good product alone is not enough. The user also needs competent advice when choosing the right product, switching over to rapidly biodegradable lubricants and for application. It really pays off to have an expert partner by your side.

#### **PLANTO**

#### **FUCHS lubricants**

stand for performance and sustainability, for safety and reliability, for efficiency and cost savings.

They represent a promise: **technology that pays back.** 

Process compatibility – efficient operations

Rapidly biodegradable – protecting endangered habitats

CO<sub>2</sub> reductions – optimizing our customer's carbon balance

Food grade – enables industrial food processing

Less wear – reliable operations

Fuel savings – saving precious resources and lowering emissions

Corrosion protection – enhanced machine life

Extension of maintenance intervals – reduced downtimes

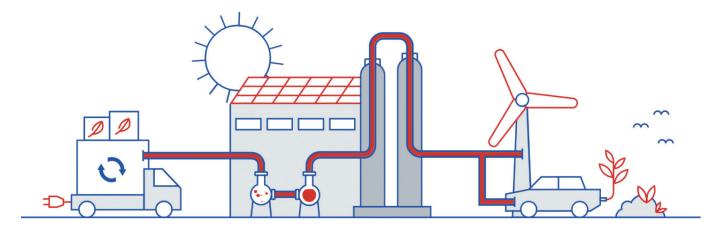

High thermal resistance – enhanced lubricant use, cost reduction

Reduced oil consumption – resource efficiency

## CO<sub>2</sub>-neutrality\* strategy

## We support our suppliers and engage in sustainable purchasing.

We share the results of our research and support our suppliers in developing and using sustainable and carbon-neutral\* precursors.

## Our production: Responsible and CO<sub>2</sub>-neutral\*.

We focus on resource conservation and energy savings within our production operations.

We compensate for unavoidable CO<sub>2</sub> emissions with selected, certified climate protection projects.

## What our customers contribute: Less friction, reduced energy consumption.

The use of our products makes a strong contribution toward helping the environment. Our environmental performance analyses show: Thanks to factors including friction reduction, the CO<sub>2</sub> savings are significantly greater than with conventional products.

## LUBRICANTS FROM CO<sub>2</sub>-NEUTRAL\* PRODUCTION

As of January 2020, FUCHS is a  $CO_2$ -neutral\* company globally and its customers receive lubricants from  $CO_2$ -neutral\* production worldwide.

FUCHS'  $CO_2$ -neutrality\* strategy is embedded in its sustainability strategy, which was launched in 2010. In order to implement  $CO_2$ -neutrality\*, FUCHS offsets its  $CO_2$  emissions, which have not yet been avoided so far, through carbon-compensation payments by investing in high-quality climate protection projects aimed primarily at promoting renewable energies.

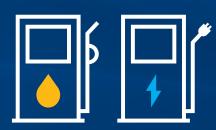

Since 2021, the calculation of the above-mentioned  $CO_2$  emissions has included not only the pure production companies, but also 100% of all sales and administration locations, as well as all joint ventures.

In the medium term, FUCHS intends to gradually reduce its carbon compensation payments and increase its share of renewable energy supplies, while continuing to invest in improving the energy efficiency of its locations.

In the long term, the company also aims to sell CO<sub>2</sub>-neutral\* products to its customers, which requires that FUCHS will in the future be supplied with CO<sub>2</sub>-neutral\* raw materials by its suppliers.

# Always one step ahead. With BluEV Technology.

As a pioneer for the mobility of the future, we have developed over 10,000 lubricants for more than 90 years. With the brand TITAN, FUCHS has been represented in many electric and hybrid vehicles from leading premium manufacturers for a long time.

#### **BluEV Technology stands for**

- many years of experience and solid automotive know-how,
- performance, reliability and efficiency,
- advanced lubricant solutions.

BluEV Technology builds the bridge between existing and new products and their application in conventional vehicles with combustion engines as well as hybrid and electric vehicles.

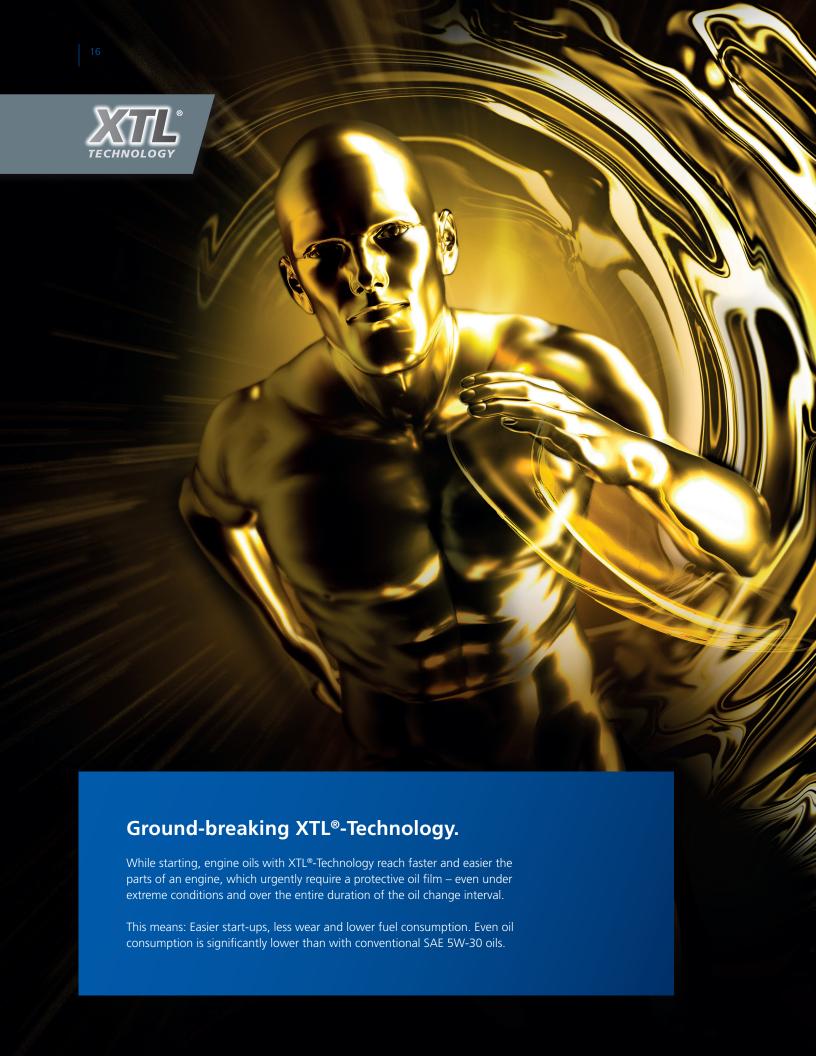

We therefore offer a comprehensive range of lubricants for all automotive applications, including electric powertrains. So we can take the step into the mobility of the future together.

Automatic Transmission Fluid Flushing – Gear+ Higher Revenue Through Transmission Oil Service

The optimal solution for your customers to effectively clean the automatic transmission by flushing the oil circuit and filling it completely with the appropriate fresh oil.

# MULTIFUNCTIONAL OILS

In many applications in the agricultural and construction industries there are, in addition to Lubricants that are only used for a specific component so-called all-rounders: STOU and UTTO products.

Both were developed for use in transmissions and hydraulic systems and can also be used in brakes running in an oil bath (wet brakes).

STOU products can also be used in the engine if the relevant specifications are met. In simple terms, this means that a STOU is a UTTO with engine performance.

The advantages of such all-rounders are obvious: on the one hand, a real sort rationalization is possible, on the other hand, the risk of incorrect filling is significantly reduced.

FUCHS is a real pioneer in these UTTO and STOU lubricants and offers a comprehensive product range.

Multifunctional Oils	
UTTO Oils for Construction Machinery	36
UTTO Oils for Construction Machinery and UTTO Oils for Agricultural Machinery	37

## FUCHS TITAN CHF - Central hydraulic and power steering fluids of the highest quality

Modern central hydraulic and power steering systems require special formulations to ensure the best performance, durability and especially safety.

The majority of our TITAN CHF range was developed for initial filling by various OEM and thus covers the highest OEM quality standards.

Convince yourself of our excellent portfolio of central hydraulic fluids and power steering fluids.

# FUCHS Oil Chooser www.fuchs.com/us

Find the right oil for your vehicle.

It's so simple: at www.fuchs.com/us just go to the button "Oil Chooser". Then select the type of vehicle and hereupon make and model.

By selecting the type of your model ...

... an overview of all application areas and their relevant lubricants and service fluids will appear (e.g. engine).

#### **FUCHS Lubricants**

# Innovative lubricants need experienced application engineers

Every lubricant change should be preceded by expert consultation on the application in question. Only then the best lubricant system can be selected. Experienced FUCHS employees will be glad to advise on products for the application in question and also on our full range of lubricants.
